**NOTES:**

\* The book industry changed to 13 digit ISBN numbers in 2007. If old books with 10 digit ISBN numbers do not have pictures on the front cover, they are definitely obsolete.

\*\* A "Learning Kit" contains the same manual and silver audio CD(s) that was used before our conversion. The only difference is the addition of a Click It® CD-ROM. The "Table of Contents" page lists both ISBN numbers at the bottom.

\*\*\* The "latest edition date" is the date that title underwent a change or reformatting. "Pharmacists" was updated in Feb 2009. It cannot be matched with books purchased prior to Feb. 2009. A completely updated "Human Resources" program was launched in August 2009. It is totally new and cannot be matched with older editions.

Discontinued Programs are available on a special order basis only with a minimum purchase of 15 copies. They will include the manual and silver audio CD but will NOT have a Click It® CD-ROM. Contact us for more information (770) 993-4075.
